Families in Harmony with Renee Coro

Friday, September 25

Families in Harmony Level Two for children ages 5-8 is a music-based, mindfulness program assisting children in becoming more aware of the present moment focusing on both their physical and emotional well-being.

This innovative program will teach the participants simple techniques including but not limited to singing, instrumental play, songwriting, breathe work, and creative movement to integrate a mind-body experience fostering the healthy identification and expression of emotions. We will demonstrate and practice techniques that can support a healthier mental well-being in today's challenging world. Registration at longmeadowlibrary.org is required for this four-part series.

This program is sponsored by Pathways for Parents. Pathways for Parents is administered by Ludlow Public Schools and is funded by the Coordinated Family Community Engagement Grant through the Massachusetts Department of Early Education and Care.

Join us for a virtual program using the Zoom platform. You will need a computer, smartphone, iPad, or similar device that has a camera and audio ability.

The Connecticut River from the Air

**Wednesday, September 23
6:30 on Zoom**

Storrs Library and the Longmeadow Historical Society are pleased to welcome historian and author Jerry Roberts for an

extraordinary discussion on the Connecticut River from the Air. The Connecticut River From the Air is a published collection of extraordinary images by pilot Tom Walsh on an aeronautical adventure chronicled by historian Jerry Roberts. Using the book as its guide, this will provide an intimate perspective of New England's greatest river from Long Island Sound, where its waters mingle with the salty brine of the Atlantic Ocean, to its source 410 miles to the north, just yards from the Canadian border. The program's imagery will include examples of unique sights that appear along the River which can only be seen and appreciated from small, low-flying aircraft. Beauty and wonder can be found in historic canals and bridges as well as twists and bends in the River, ship wrecks, rock formations, and even sand patterns on the River bottom. From naturally formed ox-bows to cornfield mazes, hidden valleys, quaint villages, industrial cities and sweeping vistas, these Wonders of the River are the true treasures of this amazing waterway and its surrounding landscapes.

We'll be using Zoom for this presentation. You'll need a computer, smartphone, iPad, or similar device that has a camera and audio ability.

Register in advance at longmeadowlibrary.org. You'll receive an email invitation to join shortly before the program begins.
